***Ferrous metals and aluminium apply for the category "Metal"

NB: Malus is calculated with 35% of the operational costs regarding expenses for collection, transport and handling of packaging waste.

Administrative costs are not included.

Prices valid from October 1st, 2025 (adjusted November 4th, 2025) - except for the price on plastic for commercial: ****Only applies for December 2025

For the remaining five material categories: textiles, porcelain, cork, ceramics, and other - a fee of DKK 0.24 per kg, exclusive of VAT, is applied.

Quantities under 8 tonnes - DKK/kg excluding VAT (quarterly invoicing)	
	Total
Household	5.07
Commercial	3.44

Prices valid from October 1st, 2025 (adjusted September 18, 2025)

The same fee applies to the handling of the respective material categories, regardless of whether they are classified as ordinary waste, residual waste, or hazardous waste. The Danish Environmental Protection Agency has stated that it is the packaging that must be eco-modulated. Consequently, the price is not affected by whether the packaging is classified as ordinary waste, residual waste, or hazardous waste as it is determined by the criteria set out in Annex 14 of the guidance.
