

10-09-2025

Version: 1.

| Single-use packaging made available | Household | | | Commercial | | |
|--|-----------------|------------------|-------------------|-----------------|------------------|-------------------|
| Material classification (kg) | General waste** | Residual waste** | Hazardous waste** | General waste** | Residual waste** | Hazardous waste** |
| Cardboard | | | | | | |
| Green (low) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Paper | | | | | | |
| Green (low) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Ferrous metals | | | | | | |
| Green (low) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Aluminium | | | | | | |
| Green (low) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Glass | | | | | | |
| Green (low) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Flexible plastic*** | | | | | | |
| Green (low) | | | | | | |
| Yellow (medium) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Rigid plastic*** | | | | | | |
| Green (low) | | | | | | |
| Yellow (medium) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |

| | | | | | | |
|--|--|--|--|--|--|--|
| Foam plastic*** | | | | | | |
| Green (low) | | | | | | |
| Yellow (medium) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Rigid PET*** | | | | | | |
| Green (low) | | | | | | |
| Yellow (medium) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Food and beverage cartons | | | | | | |
| Green (low) | | | | | | |
| Yellow (medium) | | | | | | |
| Red (high) | | | | | | |
| Contact-sensitive packaging (To be paid but isn't modulated)* | | | | | | |
| Wood | | | | | | |
| To be paid but isn't modulated**** | | | | | | |
| Textile | | | | | | |
| Not to be paid and isn't modulated | | | | | | |
| Porcelain | | | | | | |
| Not to be paid and isn't modulated | | | | | | |
| Cork | | | | | | |
| Not to be paid and isn't modulated | | | | | | |
| Ceramics | | | | | | |
| Not to be paid and isn't modulated | | | | | | |
| Other | | | | | | |
| Not to be paid and isn't modulated | | | | | | |

*Contact-sensitive packaging is except eco-modulation. Therefore, the base price of the material classification is to be paid. Read more about contact-sensitive packaging here:

<https://www.vana.dk/en/producer-responsibility/covered-products/covered-packaging/#contactsensitivepackaging>

You'll find the base prices here: <https://www.vana.dk/en/membership/prices/vanas-base-prices/>

**VANA's members pay the same price for the respective handling of the material classifications regardless if it's categorised as general waste, residual waste or hazardous waste, and this price is eco-modulated. The Danish Environmental Protection Agency has acknowledged that it's the packaging, which is to be eco-modulated. Therefore, it doesn't affect the price whether if it's categorised as general waste, residual waste or hazardous waste as it is the criteria in Annex 14 of the Danish Environmental Protection Agency's guidance that determines it. Read more about eco-modulation here: <https://www.vana.dk/en/producer-responsibility/eco-modulated-fees/>

***Plastic has one total price, which is the same for the four submaterial classifications

****Wood isn't modulated but VANA's base price for wood is to be paid. You'll find the base prices here: <https://www.vana.dk/en/membership/prices/vanas-base-prices/>
